

Senior Frontend Developer

Full-time | UK, Germany or Spain

Do you want to work with a young, agile and innovative Team to develop unified communication cloud solutions that seamlessly integrate with Microsoft Teams? We're offering you a chance to take part in the whole development process and to work with the latest technologies. As a Senior Frontend Developer, you will be able to actively shape our product and integrate your ideas and thereby contribute to the success of Luware.

Your responsibilities

- Take part in the entire development process: from design, planning the architecture down to the development, unit-testing, and DevOps
- Collaborate with Developers, QAs, Product Owner and Scrum Master
- Analyze risks, assess project feasibility, and ensure maximum software user-friendliness
- Work with the latest technologies such as Angular, .net core, Docker, Azure and Raven DB (NoSQL)

Your skills

- Strong programming skills and an interest in the latest applied technologies
- Extensive experience with Angular/AngularJS
- Great knowledge of TypeScript/JavaScript, HTML/CSS
- Willingness to take ownership and strong sense of responsibility
- Ability to follow procedures and interest in process optimization
- Ability to communicate in English (verbally and in written)

Nice to have

- Experience with Unit/Integration Testing (or other forms of automated testing)
- Experience with any of Selenium/Protractor/PhantomJS
- Experience with RxJS, Vue
- Experience with Kendo UI is a plus
- Experience with TDD, BDD; interest in automated testing
- Experience with Docker is a plus
- Experience with Azure development and DevOps is a plus

May we get to know you?
